OPTIMA
THERMAL RECEIPT PRINTER
P200

Compact & Reliable

The Optima P200 is a small compact Thermal Receipt Printer uses 57mm (2 1/4") paper size, the same size paper rolls as credit card and debit rolls. It's engineered for reliability to meet the demands of retailers large and small. Perfect for commercial retail and restaurant applications, and existing sites that are only compatible with serial printers.

Designed for efficiency

Designed and conceived to suit any and all environments, the Optima P200 is equipped with quality components allowing it to achieve fast print speeds with low-noise and low power consumption all at an affordable price.

Light & Portable

The lightweight and compact design allows workers to carry and operate the printer with ease in any kind of enviornments including retail, restaurant, and industrial sites.

Optional Ports Available

The P200 is a reliable printer that comes standard with a serial port. A USB or Ethernet port are available on custom orders.

Drop-in-Paper loading

A simple drop-in-paper loading means that even inexperienced operators can easily maintain and load paper rolls with minimum of effort.
